

The Federation Against Copyright Theft (FACT) is the UK's leading intellectual property protection organisation.

Established for over 30 years, FACT is at the forefront of the fight against intellectual property crime in the UK and internationally, specialising in protecting both physical and digital content.

Intellectual property (IP) crime is a global problem and is costing the UK economy hundreds of millions of pounds each year. As the popularity of the internet continues to grow and technology advances, businesses must take a pro-active and comprehensive approach to fighting IP crime.

Recognised as the leaders in tackling IP crime, FACT's work is vital in ensuring digital and physical content is protected and businesses continue to flourish.

Working in both the UK and internationally, FACT's range of services and strategic and tactical solutions are designed to disrupt all forms of intellectual property crime.

FACT provides bespoke approaches to suit individual circumstances, support commercial objectives and protect organisational reputation and revenue.
